

Security

- **SSL Certificate** - All communications between the server and EasyAppsOnline user are protected by a 256-bit Secure Socket Layer (SSL) encryption. The SSL certificate encrypts data passing between the user and server during transmission.
- **Hardware Protection** - The EasyAppsOnline server is protected by Cisco Hardware Firewall. Vulnerability and Penetration testing is performed to ensure there are no weaknesses within the firewall and server.
- **Data Backup** - All data stored on the EasyAppsOnline server is backed up nightly. The data is stored on encrypted media in two separate fire-proof and water-proof locations.
- **Activity Monitoring** - All processes occurring on EasyAppsOnline are posted to the EasyAppsOnline Activity report with the IP address, date and time that the activities are completed.
- **Application Protection** - The EasyAppsOnline application is protected by an Application Firewall. This Application Firewall inspects all traffic coming and going into the EasyAppsOnline application for any malicious activity and is tested daily by McAfee Secure to confirm integrity.
- **Intrusion Protection** - The EasyAppsOnline intrusion protection system detects and blocks any malicious or unwanted behavior and can react, in real-time, to block and prevent those activities.
- **Support Personnel** - The EasyAppsOnline Support and complete staff are certified annually through a HIPAA certification program.

What Is EasyAppsOnline

EasyAppsOnline is a web-based prescreening and enrollment tool making health insurance enrollment EASY with 24/7 access anytime – anywhere. Your employees will complete a single questionnaire that will populate multiple carrier applications for medical, dental, vision, life, STD and LTD. Your employees will be delighted by NO more redundant data entry. The following year they will only need to update their current information in EasyAppsOnline and within minutes the enrollment is complete. EasyAppsOnline has 800,000+ enrollments across the U.S. We can be your enrollment solution, too!

ONE Easy Solution - **EasyAppsOnline**

- ✓ “Universal App” functionality for Prescreens eliminates paper applications, quoting “street rates” and missing information.
- ✓ Last Application employees will ever complete!
- ✓ Online Enrollment and Benefits website with full feature HRIS Benefit Admin system included free for HR managers.
- ✓ HR Managers will interactively monitor the enrollment process knowing who has or has not enrolled, but of course will never have access to the employee’s PHI.
- ✓ HR Managers can create Customized Employee portals, Compensation Reports and Surveys, and post benefit summaries, tax forms, or other company reference material.
- ✓ Offers utmost security for the Employee’s PHI, transferring information directly to the carrier through secure portals.
- ✓ EasyAppsOnline is doing our part for the environment - saving more than 10 million sheets of paper and this number grows daily.

New Features Make Benefit Management Easy

EasyAppsOnline supports both large and small groups in comprehensive benefit packages. Multiple classes can be assigned to employees making it easy to offer multiple levels or any combination of benefits.

EasyBenefitShopper is able to provide a complete Benefit Shopping Experience. Defined Contributions have become a popular choice for employers. Employees will select benefits that will be placed in a virtual shopping cart, displaying a running total of the employee’s benefit costs per pay period.

Run powerful comparative reports evaluating employee data against State or National averages. Utilize this resource for Wellness Programs or other statistical analysis.

Product Features

Benefit Summaries/Compensation Reports

Create a custom Benefit Summary for your employees. Report allows you to detail your cost/their cost to show the value of their paycheck.

Employee Insurance Video Library

Educate your employees on many insurance topics including HSA’s, deductible information, getting the most out of your insurance, etc.

NEW National Comparative Reporting System

Compare your clients’ data on a national or state scale. Compare data such as coverage selection types, weight, and medical conditions like diabetes and high blood pressure.

Reporting

Quickly and easily produce an enrollment report which details your employees’ elections within your benefit program. Track enrollment using the EasyAppsOnline detailed progress tracking report.

Family Health Portal

Allows employees to create an account in a secure Medical Reporting portal. They can share this portal with their family physicians, specialists and pharmacies, or print a Family Health and Prescription report.

Employee References and Web Links

Enables you to post employee references and linked materials on the Employee portal. These can be tax forms, handbooks, leave of absence forms, etc. Company links or web links may also be added.

Voluntary Product Support

Offer voluntary insurance products to your employees. Anything from Pet Insurance to age-rated Voluntary Life may be offered.

Employee Timecard

Employee Timecard allows employees to submit a timecard for their hours. You can then export the employees’ hours to an Excel sheet for easy review or import into a payroll system.

Surveys

EasyAppsOnline allows you to develop custom surveys for your employees to complete. Results can be viewed from your HR portal.

Emergency Contact Information System

Employees can add their Emergency Contacts to their accounts, accessible to HR managers at anytime.

Employee Wellness Software

EasyAppsOnline has many Employee Wellness functions including wellness link matching based on an employee’s medical conditions and the NEW EasyAppsOnline Health Risk Assessment System.

Complete Document HR Library

Provides you and your groups’ HR managers with many commonly used HR forms and templates to help in daily challenges.

Custom Employee Portal Branding

All companies can customize their employees’ experience on EasyAppsOnline by using the Customize Employee Portal feature. They can add logos, news, events and references for their employees.

Customize a different banner for each of your clients, or they can use the HR portal to design their own banner for their employees to view.

- No more multiple paper applications filled out every year!
- EasyAppsOnline has a single validated questionnaire which will pre-populate multiple health insurance applications including dental, vision, life, STD and LTD.
- EasyAppsOnline Application Library has more than 800 Carrier applications across the country.
- EasyAppsOnline offers three modes:
 - **Prescreening** for easy rate quotes.
 - **Final Plan Selection** allows you to offer multiple medical, dental, vision and other products to your employees. NEW: Also allows you to designate classes for your employees. Also NEW is the ability to create a Defined Benefits shopping cart.
 - **New Hire Mode** accommodates your employees’ health insurance application requirements throughout the year.
